

Your Entry in the Database

Are you a supplier and have not found your own offer in the database? Or do you miss a well-known facility in your area?

You can have your offer included in the database. All you have to do is register online and enter the description of your offer on the website:

www.demenzatlas-hessen.de

The project team will review and approve your application.

Of course you are welcome to contact the project team if you have any questions.

Project partners

The Hessische Ministerium für Soziales und Integration (Hessian Ministry for Social Affairs and Integration) and the Pflegekassen (public health care) together promote the *Dementia Atlas Hessen* with the support of the Hessischer Städte- und Landkreistag (Hessian city and state parliaments).

Social Affairs and Integration

Dementia Atlas

Information. Advice. Networks.

DEMENZATLAS
HESSEN

There is an increasing number of women and men suffering from Alzheimer's disease or dementia. Those affected and their relatives have to deal with many questions and challenges just to cope with everyday life situations:

- Where can I find advice and help?
- What kind of support is available?
- Where can I find out about diagnosis and treatment?
- Where can I meet and exchange with others who are in the same situation?

The *Dementia Atlas Hessen* picks up on these and other questions, provides information, and points the way to advice and relief near your hometown.

Demenzatlas Hessen / Dementia Atlas Hessen

The *Dementia Atlas Hessen* is an offer for those affected, caring relatives, and professionals or volunteers. In this directory you will find offers, initiatives, services, and facilities in Hessen that are close to your home, offering assistance in case of dementia.

The internet-based statewide portal gives you an overview of:

- Information and advice
- Care/relief and free time
- Living and caring
- Diagnosis and medical assistance
- Events

Visit our Website

www.demenzatlas-hessen.de

The *Dementia Atlas Hessen* is a pilot project of the project partners Hessian Ministry for Social Affairs and Integration and the public health care system. It aims to create transparency throughout Hessen about existing care structures for dementia patients and their relatives.

In addition, different opportunities for effective networking are being tested in some regions to improve the care situation.
